Preparing bulk trash for collection:

Please make sure all materials are set out properly, and keep in mind that items are hand-collected by a two-man crew. The allowed area for bulk is 4 cubic yards of material.

When preparing yard debris for bulk collection, remember the three B's: Bagged, Bundled or Boxed!

Grass, leaves and other small items should be bagged and ARE not to exceed 50 pounds per bag. Tree limbs and cuttings cannot be longer than 4 feet and must be bundled and tied with twine, string, duct tape or similar cord so one person can handle them.

For complete list of acceptable and unacceptable items please visit RADservices.com
